EDUCATION

Coding Dojo - Online

July 2022 – Oct 2022

Full-Stack Software Development Certification

- 4-month full-stack web development boot camp specializing in Python, Java, & MERN (MongoDB, Express, React, Node.js)
- Spent 1000+ hours on intensive coursework through all phases of project development of full-stack applications, including building, testing, debugging, and deploying
- Worked and collaborated in daily remote scrums with my cohort for project development and assignment completion

University of California, Irvine, Irvine, CA

Aug 2017 – May 2019

Bachelor of Arts in Political Science

GPA: 3.4

EXPERIENCE

House America Financial – Los Angeles, CA

April 2021 – July 2022

Mortgage Loan Officer/Assistant

- Gained four new realtor referral partners who sent me their clients regularly, by attending 10-15 open houses every weekend for two months, one of them being a major real estate influencer on social media.
- Eliminated over \$250,000 of debt through 7 liens, and negotiated a \$100,000 reduction in a massive lawsuit, to obtain clearance for my clients' refinance to go through and save them from bankruptcy.
- Outpaced the expectations of my boss and manager by processing upwards of \$5,000,000 in loans for the five other loan officers on my team while the lead transaction coordinator was out on maternity leave.

Touch of Urth Inc. – Los Angeles, CA

July 2017 – June 2022

Owner

- Co-founded an E-commerce skincare company, exploring various new skills from Shopify website creation, Social Media Marketing, Copywriting, Photography, Adobe Products, Legal Work, Accounting, and Product Development.
- Identified markets to sell our product, was picked up by Urban Outfitters and [interviewed](#) for an article on clean beauty.
- Resolved conflict when it appeared with my cofounder, suppliers, and various professionals that we hired by actively listening to them, taking responsibility for my errors, and applying a problem-solution approach.

PROJECTS

Airbnb Homepage React Demo | JavaScript, HTML/CSS, React, Material UI | [Github](#)

March 2023 - March 2023

- Developed a frontend application using React JS, modeling Airbnb's homepage images, floating cards, and various components with Material UI.
- Created a way for users to schedule their booking by implementing React-Range-Picker to achieve a user-friendly calendar/scheduler.

React-Demo-App | JavaScript, SCSS, React, Redux, Thunk, Jest, Netlify, Reqres | [Github](#)

Feb 2023 - Feb 2023

- Developed an application using an API "reqres.in" into a full-CRUD project.
- Utilized Jest to test that components were working before deployment.
- Incorporated Redux-Thunk to understand how to lower costs on an application through the development of middleware to make more targeted function returns.

Authors | MongoDB, Express.js, React.js, Node.js, Bootstrap, and Mongoose | [Github](#)

Oct 2022 – Oct 2022

- Developed an author and book inputting website
- Utilized React.js to allow for a faster and smoother web application.
- Enhanced the front end using Bootstrap to make speedy yet stylish fonts, tables, and buttons.
- Developed efficient requests for data from the database using Mongoose.
